@/Arpro CA “Customer Contracts”

Venice Italy, 22nd July 2016

@/Arpro
designed for
platforms:

[Italian area]
With the
contribution of:
N&R – Venice
N&R – Udine

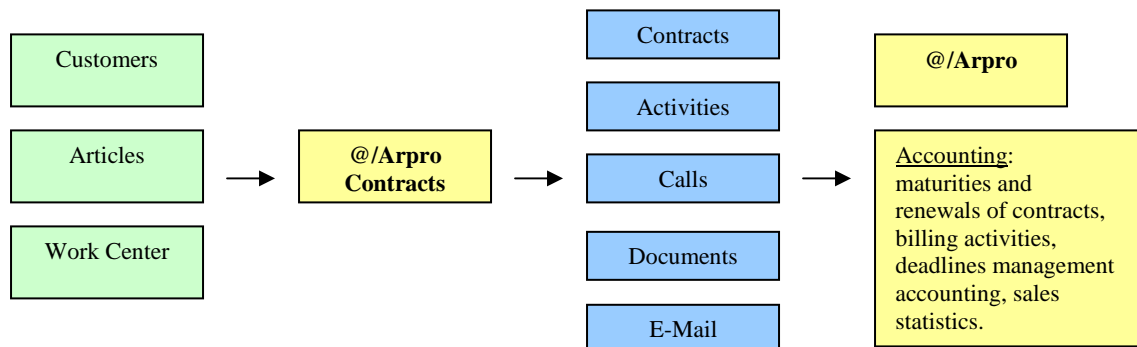

Complementary solution to the business management platform @/Arpro for managing the relationship with customers, for the provision of services or equipment rental.

Needed to service centers, call centers, companies dedicated to the car rental business in the short and long term, rental business in the construction industry (equipment, scaffolding, building equipment, platforms, ...), for cleaning companies; all sectors that necessarily require specific applications.

@/Arpro CA - **Contracts** primarily addresses these goals:

- ✓ *customers contract management (names, references and proxies, services, equipment, ...);*
- ✓ *activities and services management*
- ✓ *scheduling calls (customer, contract);*
- ✓ *document management (crm) and integrated email;*
- ✓ *links accounting (billing mandates);*
- ✓ *various statistics.*

A solution to 360° that concerns the following business areas: contracts and leases, equipments storage area and cost centers, sales and purchases documents, budgets, connection accounting.

Solutions greatly simplified for the business management of companies:

@/Arpro, ... Treasury, ... Analytical Accounting, ... Production, ... Job Orders, ...

**Business
Management
Solutions**

The entire management of the “mandates billing” is guided by a dedicated tool that checks the billing, analyzing and filtering the requirements.

The tool highlights the work done to be billed, as well as a series of individual search filters with a graphically and easily system that set the procedures for delivering data to the accounting area.

The processes carried out are connected with the warehouse of articles, to download the consumption of material, with the work centers to highlight the time taken by department and operators, with the accounting area.

The **@/Arpro CA - Contracts** is a simple and interactive tool, using a graphics standard very near the host platform Microsoft Windows®, it works with devices available and can be used in a network with multiple computers connected.

We remain at your disposal for any need, on this occasion we send you our best regards.
