The entire management of "Billing Mandates" is guided by a dedicated tool that checks the billing while analyzing and filtering the requirements.

Just one click for auto-invoicing:

@/Arpro  
designed for  
platforms:

- ✓ *billing services*
- ✓ *... contract renewals*
- ✓ *... activities*

The tool highlights the completed processes to be billed, as well as a series of individual search filters with a graphical and easy system that sets the procedures for delivering data to the accounting area.

*The processes carried out, are connected with the warehouse articles in order to unload the consumption of material linked to the work centers while taking into account the labor worked by departments and operators and is linked to the accounting, in real-time.*

The @/Arpro CA<sup>®</sup> **Contracts** program is a simple and interactive tool, using standard graphics by working closely with the host platform Microsoft Windows<sup>®</sup>, it works with available devices and can be used in a network with multiple computers.

We remain at your disposal for any questions. With this opportunity we send you our best regards.
