@/Arpro Erp® Job-Orders Module “Worksite Management”

@/Arpro®
designed for
platforms:

Florida Region

Windows

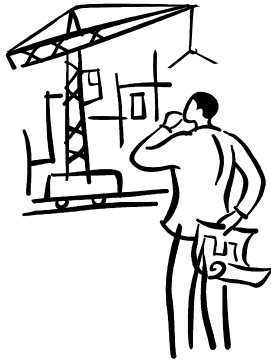

Windows
Server

[Italian area]
With the
contribution of:
Arpro – Venice
Arpro – Udine

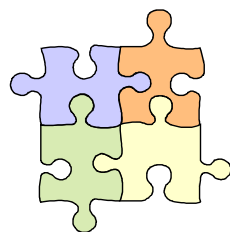

The simple Business Solution that manages construction from A to Z, such as contractors, installations, plumbing, electricians, ...

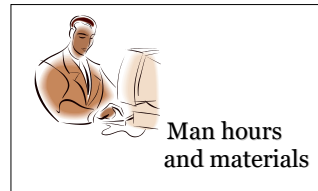

This solution offers many methods of optimized organization, designed for small and medium-sized companies with a strong need for comprehensive processes throughout quotes, customer orders, production and planning, in real-time.

Each Worksite Management Document (Job Order), contains all necessary data to thoroughly manage projects, such as customer references, payments & delivery conditions, warehouse items, tasks & services, quotes, estimates & final balances, agreements & notes, as well as drawings and project data.

Best-in-and-out-of-class worksite app!

Job Order

*Construction is the Ultimate “Get It Done” Business.
Auto-generate a Quote into a Job Order with one-click &
SAVE CONSIDERABLE TIME!*

A simplified and completed SOLUTION for businesses:

@/Arpro®, ... Treasury, ... Analytical Accounting, ... Production, ... Job Orders, ...

Arpro Solutions LLC, Arpro Solutions SA, N & R Group

Upon receipt of the Customer Order and confirming the details of the Quote, easily generate the corresponding Job Orders.

Simply insert materials and processes used to complete the project and obtain a detailed final balance for an evaluation of costs, margins & profits.

Once the "Worksite" activities are partially completed (Progress Billing) or finished, the Job Order auto-transforms into sales invoices while auto-generating payment deadlines & accounting records, in real-time.

@/Arpro®
designed for
platforms:

Windows

@/Arpro Erp® Job Order controls the Progress Billing to obtain payment from a customer for that portion of a project that has been completed to date. These billings are commonly issued when a project has a long duration, so that the company can obtain sufficient funding to support its operations in the interim.

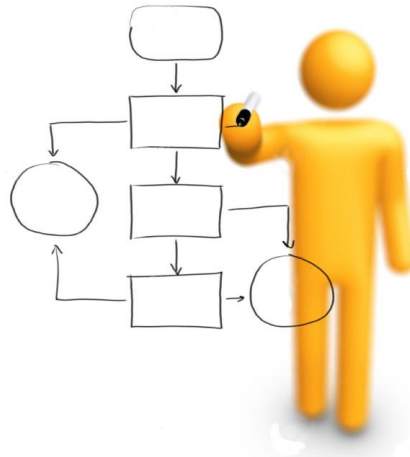

**Increase Construction Efficiency
With This Powerful Project Management Tool
& Benefit from the ease of use and reliability ...**

Windows
Server

"Time is Money" ...

[Italian area]
With the
contribution of:
Arpro – Venice
Arpro – Udine

Once the work process is completed, you can understand the value of the margin (Turnover/Expenses Analysis) on the single process or on the entire Worksite Job Order!

We remain at your disposal for any questions. With this opportunity we send you our best regards.
