@/Arpro Erp® “Quality Module ANSI/ISO/IEC”

Florida Region

@/Arpro®
designed for
platforms:

Quality Control & @/Arpro®

Quality Management provides quality planning, quality assurance, quality control, and improvement. It is focused not only on product and service quality, but also on the means to achieve it.

In the recent years, quality has become the buzzword for many organizations. With the competition being stiff in the market, maintaining high quality level has become paramount for business success.

@/Arpro Erp® Quality module should be considered to be *the base level of a quality system* that, along with a specialized advisor, will be all the artillery you need!

[Italian area]
With the
contribution of:
Arpro – Venice
Arpro – Udine

@/Arpro Erp® Quality module is specially developed for providing effective systems for detection & subsequent corrective and preventive actions to be taken.

A simplified and completed SOLUTION for businesses:

@/Arpro®, ... Treasury, ... Analytical Accounting, ... Production, ... Job Orders, ...

ANSI/ISO/IEC is integrated into the production program and requires the basic program **@/Arpro®** from which to extract data and procedures.

@/Arpro®
designed for
platforms:

[Italian area]
With the
contribution of:
Arpro – Venice
Arpro – Udine

The program menu list summarizes all of the specifications and functions of the basic platform:

- ✓ *Non-Conformity and claims with detection and reporting, as well as analysis and treatment;*
- ✓ *Analysis of Non-Conformity through analytical tools and charts;*
- ✓ *Controls management of production processes, distinguished by year;*
- ✓ *Audits and Verifications;*
- ✓ *Customer Satisfaction;*
- ✓ *Quality Manual documentation (with examples);*
- ✓ *Instruments and Equipment, with the management of Maintenance and Calibrations.*

A part of the program is dedicated to the tools management: Master Data, Maintenance Plans and Calibration.

The management of No-Conformity and customer complaints as well as analysis and treatments are one of the key elements of the Quality module.

Designed to retrieve, analyze, transform and report data to have a clear and immediate analytical and graphical evaluation in real-time, highlighting where anomalies occur.

A simplified and completed SOLUTION for businesses:
