To the kind attention of Manager

Business Management Software @/Arpro Erp®

**@/Arpro Erp®
+
Microsoft Project®**

The @/Arpro Erp® solution opens the doors to the Microsoft® application through a specific interface: Project, Excel, ...

What are we offering you on @/Arpro Erp®?

**Create a two-way connection
between Project and SQL Server**

A simplified and completed SOLUTION for businesses:

@/Arpro, ... Treasury, ... Analytical Accounting, ... Production, ... Job Orders, ...

Microsoft Project®, as a supplementary tool to the management base, is designed to retrieve, analyze, transform, and report data, in real-time.
Is the data entered MANUALLY???

Onerous and repetitive operations, with the risk of major human error!
@/Arpro Erp® has 1-click auto-population!

*Avoid manually entering data into Project®,
if these are already available in @/Arpro Erp®.*

*While using Microsoft Project®,
you will always be connected to your data!*

What a time saver
+ What reliability!

There are many areas of application of this integrative technology: from production management, staff & company resources, to the industrial analytical accounting.

Gantt® charts are incredibly versatile—they're useful for multiple roles, such as:

- ✓ Project managers
- ✓ Marketing managers
- ✓ CEOs
- ✓ Team leaders
- ✓ Operations managers
- ✓ Consultants

Certainly, for the business intelligence & Gantt® diagrams, our software will guide you through smoothly. So, you have an immediate graphical and analytical view of all the production flows.

A timeline of a project, showing the time framing of the various activities is more and more ...

Our staff remains at your disposal for any needs or clarifications that may be necessary, with this occasion we extend our best regards.
