Approved & certified by Partners and CPAs

@/Arpro Erp Job Orders®
Smart Production can be done!

Simplifying Solutions for Small & Medium-Sized Businesses, perfectly integrated to the @/Arpro® Accounting.

Profit-Making Features

✓ **Easy Optimized Organization:** evaluate real-time profitability and decide whether you should produce a particular item. Our Job Order costing system delivers a very efficient method to calculate the exact expenses required for materials, labor, and overhead before, during & after producing an item. The system easily auto-transforms Job Orders into Invoices and creates the payment deadlines (Accounting).

✓ **Track Employees Performances:** our Job Orders program provides the information to help you evaluate individual performance data in terms of productivity, efficiency, and cost-control. With this tool, you can also identify the employees who fail to meet performance expectations.

✓ **True Scalability:** the Job Orders system can be set up to match a variety of processes, regardless of whether they're associated with complex manufacturing or assembly operations or simple tasks. Transition to the @/Arpro Erp® full edition in minutes.

✓ **All-around Monitoring:** Job Orders allows you to monitor the production process continuously, giving you enough time to identify potential issues and make corrections. Producing defective items or going over budget is virtually impossible.

✓ *@/Arpro Erp Job Orders®* was created with the logic of simplicity yet remaining cost-effective.

THE PROGRAM APPLICATION AREAS ARE MULTIPLE:

✓ *PRODUCTION & ASSEMBLY COMPANIES*
✓ *CONSTRUCTION (ELECTRICIANS, PLUMBERS, ETC.)*
✓ *TECHNICAL OFFICES (ARCHITECTURE, ENGINEERING, DESIGNING, ETC.)*
✓ *SERVICES & ADVISING COMPANIES*
